SUPPLEMENTAL AMENDMENT

Sir:

In further response to the Office Action having a mailing date of March  
30, 1993 and received in regard to the above-noted application, please enter the  
following amendments and remarks.

IN THE CLAIMS

Please add the following new claims:

~~21. (NEW) A device for retaining a sample to be analyzed  
spectrochemically, comprising:  
a tubular member defining an axial bore extending therethrough; and  
a receptacle member defining an interior cavity for receiving said sample,  
said receptacle member having a tubular sidewall portion axially alignable with said  
tubular member and frictionally receivable within said axial bore and an endwall portion  
defining a centrally disposed reduced thickness region, wherein an upper edge of said  
tubular sidewall portion is adapted to receive a flexible sheet of material and wherein  
said receptacle member includes an exterior annular collar disposed proximate a lower~~  
an end region
